## SECOND RED CROSS DRIVE

Dates Set For May 6th to 13th  
And \$100,000,000  
The Goal.

Ohio, Indiana and Kentucky will be asked to contribute \$9,400,000 in the second Red Cross War Fund Drive for \$100,000,000 R. F. Grant director of the drive in the Lake Division, announced Friday. The drive dates are May 6th to 13th.

Ohio's quota is \$6,400,000, Indiana's \$2,100,000 and Kentucky's \$900,000.

Mr. Grant of M. A. Hanna & Co of Cleveland, appointed to the War Fund directorship by Division Manager James R. Garfield, states the Lake Division will have its own drive manager. Names of the drive managers will be announced within a few days.

At division headquarters in Cleveland C. B. Dyer is executive secretary. Franklyn B. Sanders is campaign supervisor; W. W. Wheeler manager of advertising; D. C. Dougherty, manager of the news bureau, and R. G. Frisbee, manager of the speakers bureau. Mr. Dyer will also have charge of the distribution of supplies.

Prominent cartoonists and artists have contributed poster drawings. Authors and advertising men have written advertising copy. Seasoned campaigners and accountants have prepared drive instructions and accounting manuals.

"Performances and expenditures of the American Red Cross abroad and at home during the first year of the war will be placed before the public before the second drive begins." Mr. Grant said today;

Last summer with but little organization, the Red Cross secured subscriptions amounting to \$119,000,000. And now with a membership of 22,000,000 we have every reason to believe that the \$100,000,000 fund will be oversubscribed.

Within a few days chapter campaign managers will be advised of the dates of a series of state meetings at which campaign purposes and methods will be explained.

### Income Tax Officer Coming

Mr. Josh T. Griffith, Collector of Internal Revenue wishes to advise the people of this City and County that owing to the severe weather, which rendered it impossible for a great many farmers and others to visit the Income Tax Agent who was here recently to assist the public in making Income Tax reports, that the time for filing the same has been extended to April 1, 1918 and that an Income Tax officer will be here from March 11th to 16th inclusive at the Court House to give every assistance to those who have not made report and are due to make same.

He wishes to urge upon all who should make reports to call and see the officer and to attend to same at once, as the penalty for failing to make returns is severe and that the Department will prosecute all delinquents.

Be patriotic. Don't be a slack-er.

To Cure a Cold in One Day. Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 30c.

## TIMES UNION ALBANY N. Y'S

Greatest Newspaper Says Senator Ollie M. James, Pulverizes The Critics.

In his great speech in the United States Senate on Thursday, Senator Ollie James, of Kentucky, fairly pulverized into dust the captious critics of the war policies of the Wilson Administration. As Senator James marshaled uncontrovertible and undisputable fact after fact in that rhetorical and succinct manner of which he is such a master, the senatorial critics must have felt the mantle of shame fall over them, the odium of confusion surround them. In a way the critics cannot answer the eloquent Senator showed the admirable work the War Department has done, the fine service the Navy Department has rendered, the general efficiency of the whole Administration, and in support of his statements he quoted laudatory commendation from some of the leading men of France and England. How Chamberlain must have smarted, how Hitchcock must have squirmed, how Wadsworth must have wiggled under the ironical thrusts and the unanswerable arguments of the eloquent Senator from Kentucky. Senator James has fired some big oratorical guns in his time, but never a bigger oratorical gun than the one he fired in the Senate Thursday. It was a great speech. It was a great tribute to the statesmanship of Woodrow Wilson, it is a service to the country for which we all owe a debt of thanks to Senator James, who is a mountain of a man mentally as well as physically. Senator James, we salute you, our hat is off to you! Your eloquence is as great as your personality and your personality makes you a king among men. Again, we salute you—as a magnificent type of Kentucky manhood, of Southern chivalry, of American citizenship.—Times-Union, Albany N. Y.

### Mrs. Mollie McNeely Passes to Her Reward

Mrs. Mollie McNeely, wife of J. B. McNeely, died at their home on Bellville street in this city Tuesday night at 8 o'clock of tuberculosis. The remains were buried at Piney Fork Wednesday at noon.

Besides her husband she is survived by one daughter, Pearl, wife of Burk Crider, and three sons, Rev. Sidney, of this county; Allie, of this city, and Hodge S., who is with the U. S. army in France.

### The Dycusburg Red Cross.

The Dycusburg Branch of the Crittenden county American Red Cross Chapter sent to the headquarters at Marion another box containing 8 sweaters, 8 pair of wristlets and 7 pair of socks to be sent to our division headquarters.

This is the second generous contribution of the Dycusburg Branch.

Dycusburg now has 54 active wide awake members and expects to have more before the next big drive May 6-13. Mr. J. A. Graves is the chairman, Mrs. Ida Yancy the vice chairman, Miss Mary Finley, treasurer, and Miss Ola Charles, secretary.

### An immense Otter Slain in Camp Creek Near Mt Zion

Ewin McDowell who lives on the land he purchased from W. T. Fowler on Camp Creek, killed an otter last Thursday night about 9 o'clock, which measured five feet and six inches from tip to tip. It was a male otter and was about 20 years old. Its color was a rich brown, and Mr. McDowell prizes its hide very much and talks of having it mounted by a taxidermist.

The animal was evidently out of its course, and had probably lost its bearing as it was three miles from the Ohio river and one and one-half miles from Crooked Creek.

Mr. McDowell lives on the Marion and Weston road about three quarters of a mile from Mt Zion church.

## FARM FOR SALE!

### I WILL, ON MONDAY, MARCH 11th, 1918

Sell to the highest and best bidders, the farm known as the J. L. Wyatt farm at Fredonia, Ky., 320 acres, more or less, and located within the city limits, 1-4 mile from graded school, 3 churches, I. C. station and all modern town conveniences. The above farm has 4 of the best tenant houses in the county, weatherboarded and ceiled inside, a weatherboarded tobacco barn, capacity 28 acres of tobacco, a fine and well arranged cow barn and silo, mule barn and granary, several ponds and an ever-flowing spring. I say without fear of contradiction this is the best stock farm for sale in the county. The above described land will be sold in pieces and parcels and then as a whole, on liberal terms, terms made known on day of sale. If you are hunting for a well located and improved stock farm you can't afford to overlook this place. Parties wishing to see this farm before date of sale will apply to J. A. Wilson, Fredonia, Ky. A two-story, 7-room residence in the town of Fredonia and one of the best houses and locations in town.

## AMERICANS WIN IN NEW GERMAN RAID

THREE RECENT RAIDS PROVE STAYING QUALITIES AND GRIT OF SAMMIES.

### GERMANS USE SHOCK TROOPS

American and French Artillery Shells Enemy and Causes Hun's Most Noted Fighters To Quickly Abandon Their Attack.

With the American Army in France—Another German raid on the American line was made in the Chemin-des-Dames sector. After sharp fighting the enemy retired, leaving four prisoners, two of whom were wounded.

The Americans lost some killed and a number slightly wounded or missing. All are New Englanders.

Three companies of shock troops, one of which had been brought from Laon by motor cars for the attack, came up behind a heavy barrage which had been put down along the left flank of the American forces.

The American and French artillery effectively counter shelled the enemy during the attack, which was localized, and during his retirement.

One of the prisoners captured said this was the beginning of a series of similar raids on a large scale along the western front.

The three recent raids, one in the Toul sector and two along the Chemin-des-Dames, have demonstrated that the American soldier, notwithstanding his previous inexperience, now is perfectly at home in a gas mask and able to fight just as well with as without it. In so quickly reaching this stage the Americans have shown their usual adaptability. Gas was used in all three attacks in just sufficient quantities to make masks necessary, as the Germans in their later attacks did not desire to encounter quantities of their gas.

There were many other instances of personal bravery. A lieutenant, a sergeant and two privates were in a dugout when some Germans looked in. One cried out in good English: "Come out, Americans."

The four Americans blazed away with their automatics, then rushed the entrance to stumble over the bodies of the men, who they had killed by their quick resistance.

Although the army has been cursing the weather and the mud for days, there is one man in the line who is glad it was muddy, for he owes his life to the slippery "duck boards," or the flooring in the trenches. With pistol in hand, he rounded a trench corner looking for the Germans. A burly Prussian saw him first and fired but at the same moment the American slipped and fell on his face. The Prussian thought him dead, and turned away. He was quickly dropped in his tracks by the prone American, who fired accurately from the trench bottom. There were men in the fight from virtually all the states from New York to Texas. With one or two exceptions, all the wounded are expected to recover.

**Sugar Famine in Montreal.**  
Montreal.—Montreal is in the grip of a refined sugar famine and information received from reliable sources is to the effect that conditions are not likely to improve much during the next six or seven weeks.

**May His Concerts Be Resumed Soon.**  
Chicago.—Not until Poland is a free independent country will Ignace Jan Paderewski again play the piano.

### ENFORCING FOOD LAW.

**Bald Knob, Ark., Concern Ordered To Quit Business.**

Washington.—W. A. Hodges & Co., wholesale jobbers of foodstuffs at Bald Knob, Ark., have been ordered out of business by the United States Food administration. The federal food administrator for Arkansas recently reported to the administration that Hodges & Co. were doing business without a license and had been selling sugar in excessive quantities.

**British Defends the Czar.**  
London.—Speaking at a dinner given in his honor in London, Sir George Buchanan, British ambassador to Russia, who is now on leave, took occasion to correct the widespread report that at the time of his abdication Emperor Nicholas was ready to conclude a separate peace. Sir George said there was not a word of truth in this report. Doubtless Nicholas had much to answer for, he remarked, but he would never have betrayed the cause of the allies and was always a loyal friend to England.

**Bandits Rob Paymaster.**  
Toledo, O.—Four bandits in a high-powered automobile held up and robbed the paymaster of the Doehler Die Castings company of \$5,900 in cash near the factory in the western outskirts of the city.

**Brig.-Gen. Smith Dies.**  
San Diego, Cal.—Brig.-Gen. Jacob Hurd Smith, U. S. A., retired veteran of the civil war, died here. His home was at Garrison-on-the-Hudson, New York. He was decorated for gallantry at the battle of Shiloh.

## GERMANY TO LEARN U. S. NOT BLUFFING

ALIEN PROPERTY CUSTODIAN A MITCHELL PALMER TO TAKE CHARGE OF BIG SHIP LINES.

### BODY BLOW AT HUN TRADE

Action of President Should Prove to German People Only by Trustworthy Government Can Trade Be Recouped.

Washington.—America is about to take a step that ought to make Germans think twice about whether or not the United States is in earnest in her determination to use her trade power as a means of forcing a democratic peace. For the government of the United States, through the alien property custodian, A. Mitchell Palmer, is arranging to take legal possession of the Hamburg-American and North German Lloyd Steamship lines, and if Congress says the word the enormously valuable dock facilities in the port of New York will be sold to the highest bidder, preferably American interests.

This step, which has long been in contemplation, has the personal approval of President Wilson. It does not mean that the sale of the dock facilities, which incidentally could be replaced by Germany only after years of building and the payment of high prices for other waterfront property, is to be consummated immediately. It does mean, however, that the government of the United States is about to take over the administration of the two big steamship lines and control of their stock and that an after-the-war question of prime importance has been raised.

The value of the German line docks has been estimated to run away up in the millions. Certainly if Germany should lose them it would be a body blow to her trade, which she expects to recover promptly after peace is declared. But if her boats have no docking space Germany cannot resume trade relations the day peace is declared, as she has been planning to do. Her statesmen have quieted the fears of Germany's business men by saying that America was bluffing and that American selfishness would prevent any discrimination against Germany many after the war.

Of course, the treaty of peace, if it is the right kind of peace, as Mr. Wilson himself hinted in a recent message to Congress, could prevent any discrimination against Germany.

**CARRY MAIL IN AIRPLANES**

Aero Mail Service Between New York and Washington to Begin April 15.

Washington.—Airplane mail service between New York and Washington will be in daily operation beginning April 15, is announced by the post office department. Eight machines will be furnished by the war department by arrangement between Postmaster-General Burleson and Secretary Baker the aerial postal service will be conducted for one year as part of the aviation training system of the army. The machines will be piloted by army fliers.

**Thanks American Women.**  
Washington.—The woman's committee of the Council of National Defense has received a letter from the President of France, thinking the women of America for a message sent by Dr. Anne Howard Shaw, chairman of the committee.

**NEXT LIBERTY LOAN APRIL 6**

Washington.—On April 6, the first anniversary of the United States entry into the war, the third Liberty loan will open. There will be a campaign of three or four weeks. In announcing the date Secretary McAdoo said the amount of the loan, the interest rate and other features, such as convertibility of bonds of previous issues, maturity and terms of payment, are yet to be determined, and new legislation will be necessary before plans can be completed.

The fact that the amount of the loan is dependent on further legislation indicates that it will be for more than \$3,600,000,000, the remainder of authorized but unissued bonds, and the fact that certificates of indebtedness now being sold in anticipation of the loan can bear 4½ per cent affords some indication of the interest rate.

How large the loan shall be depends largely, however, on the fate of the pending war finance bill carrying an appropriation of a half billion dollars and action on the railroad bill, with its appropriation of a similar amount.

**SCANNING SECURITIES.**

Only Issues Based on Essential Industries Encouraged.

Washington.—Members of the Federal Reserve Board's capital issues committee, conferring with representatives of state public utility commissions, urged them to scan carefully every application for approval of proposed securities with a view of determining whether it is essential to conduct of the war. They were told that non-essential enterprises should be curtailed.

**Princeton Student Wins Medal.**  
Washington.—R. L. Nourse, Jr., of Boise, Idaho, a Princeton student serving with the American ambulance in France, has been cited by the French government to receive the cross of war for bravery under fire and devotion to duty while wounded.

**Troops and Strikers Mix.**  
Buenos Aires.—Two persons were killed and several others were injured during fighting between troops and strikers at two points on the Pacific railway.

## U. S. SOLDIERS TAKE SWIFT RETALIATION

U. S. ARTILLERY WIPES OUT HUN POSITIONS THAT MADE GAS SHELL ATTACKS.

### BOMBARD ENEMY BATTERIES

Timbers Thrown High in Air and Explosions of Enemy Ammunition Directly After Being Hit With American Shells.

With the American Army in France—Swift retribution has fallen upon the German batteries which bombarded American trenches northwest of Toul with gas shells. American heavy artillery concentrated its fire on the German Minnenwerfer batteries and obliterated the position.

Many direct hits with high explosive shells were made by the American gunners. Timbers were thrown high in the air, and explosions, probably of enemy ammunition and gas, resulted. The ground about the German batteries was churned upside down, and if there were any German soldiers there, they certainly suffered death.

Thus far six men have died from the effects of the German gas shells. More than 80 are in hospitals suffering from gas poisoning. Most of the cases, however, are slight, and only one man is reported in a grave condition.

Airplane photographs aided American gunners in their destructive fire against the German batteries. The photographs disclosed the exact location of the Minnenwerfers, with the result that it did not take the gunners long to even up the score with the enemy.

The American artillery has kept up a constant harassing and destructive fire on many vital enemy points, such as cross roads and towns. German working parties were dispersed effectively, and once the 75s fired vigorously on a number of Germans in a first line trench, blowing in the entire trench system.

### RUSSIANS TO FIGHT TO END UNREST IN THE NORTHWEST

Agitators Will Be Detained and Deported Even Though No Overt Act Committed—Guilty Americans To Be Punished.

London.—According to the Daily Mail, it is understood that the allies have decided to ask the Japanese to take steps necessary for the protection of the allies in the Far East.

Stress is laid on the fact that the British and Japanese governments hold that Japan's intervention in the Russian affairs is not to be construed as an act of hostility to Russia or the Russian government, its purpose is to safeguard menaced allies.

The secretary's action was in answer to requests from employers and civic organizations of Seattle and other cities that the department undertake the wholesale internment of Industrial Workers of the World, who were blamed for industrial unrest, particularly in the logging camps.

Mr. Wilson held that membership in the I. W. W. organization was not itself cause for arrest or deportation, but aliens who preach overthrow of the government by force, assassination or who are in any other manner subject to deportation under the immigration laws should be taken into custody at once.

The department stands ready to support the round-up of anarchistic agitation by supplying funds to obtain additional quarters if the Seattle station proves inadequate for internment them.

Orders for the suppression of radical propaganda by aliens are regarded by officials as the final step in the government's determination to put a stop to extremists who seek to interfere with the prosecution of the war from motives sincere or otherwise.

Citizens of the United States who preach anarchy will be handled by the Department of Justice, which brought about the arrest of scores of I. W. W. in the nation-wide raids last year.

Secretary Wilson's order was issued with a full personal knowledge of the situation in the northwest.

### HUNS GET SEVERE DRUBBING.

American Troops Prove Their Superiority in Trench Fighting.

With the American Army in France—A strong German attack following a heavy barrage fire against the American trenches in the Chemin-des-Dames sector was repulsed with heavy losses to the attackers. The well placed American machine guns sent streams of bullets into the advancing enemy and as the German barrage fire lifted the American artillery quickly laid down a curtain of fire, the Germans retiring without a single prisoner.

The Americans stayed in their dugouts until the proper time, when they jumped to the guns and fought like veterans.

### Warning To Coal Producers.

American Front in France.—The first American officer to be killed in action was shot at close range by a German in the raid northwest of Toul. Immediately the German was killed by another American officer.

They left behind three prisoners and 19 dead, including a captain and a Lieutenant, and were thoroughly beaten in the hand to hand fighting which raged fiercely throughout that section of trenches which they attempted to sweep.

The Americans stayed in their dugouts until the proper time, when they jumped to the guns and fought like veterans.

### Millionaire Must Go To Prison.

Chicago.—John F. Jelks, millionaire oleomargarine manufacturer, under sentence to serve two years in prison and pay a fine of \$10,000 on charges of conspiring to defraud the government of taxes, must serve his sentence, according to a decision of the United States circuit court of appeals.

### 18 BRITISH VESSELS SUNK

London.—Eighteen British merchantmen were sunk by mine or submarine in the past week, according to the British admiralty report. Of these 14 were vessels of 1,000 tons or over and four were under that tonnage. Seven fishing vessels also were sunk.

The losses to British shipping in the past week shows a considerable increase over the previous week, when the vessels destroyed numbered 15, 12 of them over 1,000 tons.

To drive a tank, handle the guns, and sweep over the enemy trenches, takes strong nerves, good rich blood, a good stomach, liver and kidneys. When the time comes, the man with red blood in his veins is up and at it. He has iron nerves for hardships—an interest in his work grips him. That's the way you feel when you have taken a blood and nerve tonic, made up of Blood root, Golden Seal root, Stone root, Cherry bark, and rolled into a sugar-coated tablet and sold in sixty-cent vials by almost all druggists for past fifty years as Dr. Pierce's Golden Medical Discovery. This tonic, in liquid or tablet form, is just what you need this spring to give you vim, vigor and vitality. At the frag end of a hard winter, no wonder you feel "run-down," blue, out of sorts. Try this "Medical Discovery" of Dr. Pierce's. Don't wait! To-day is the day to begin! A little "pep," and you laugh and live.

The best means to oil the machinery of the body, put tone into the liver, kidneys and circulatory system, is to first practice a good house-cleaning. I know of nothing better as a laxative than a vegetable pill made up of Mayapple, leaves of aloe and jalap. This is commonly sold by all druggists as Dr. Pierce's Pleasant Pellets, and should be taken at least once a week to clear the twenty-five feet of intestine. You will thus clean the system—expel the poisons and keep well. Now is the time to clean house. Give yourself a spring house cleaning—Adv.

# DRY MEASURE IS UP TO GOVERNOR

SENATE CONCURS IN THE HOUSE  
ANTI-SHIPPING AMENDMENTS  
AND PASSES BILL, 31 TO 3.

## AIID GIVEN STATE SCHOOLS

Educational Institutions Given Permanent Support By Being Placed in General Tax Distribution Fund—Trading Stamps Law Is Defeated.

Frankfort.—The Senate concurred in the House amendment to the Taylor anti-shipping bill and passed the measure, 31 to 3. It now goes to Governor Stanley for his signature. It is a "bone dry" law. The amendment which the Senate concurred in provide that liquor may be shipped into dry territory for sacramental purposes, and give a distiller in dry territory the right to ship intoxicating liquors into wet territory over a common carrier.

Permanent support was given the University of Kentucky, the Eastern Normal School and the Western Normal School, when the Senate passed the bill of Representative Arch L. Hamilton, of Fayette county, which in effect makes a redistribution of the forty-cent state tax and places the three institutions in the general tax of 40 cents on the \$100. Not a vote was cast against the bill, and but one amendment added, that being an emergency clause.

Senator Perry's effort to suppress trading stamps met with defeat, the Senate tabling the bill and the substitute offered by Senator Helm and all pending amendments, 18 to 16. This was done after many of the Senators had indulged in debate discussing the bill and the Helm substitute. The substitute of Senator Helm sought to legalize the trading stamp business by imposing a state tax of \$250 on trading stamp concerns, a local tax, and county tax of \$15 on merchants using same.

The House concurred in all the amendments to the red light nuisance abatement bill as made by the Senate.

The bill provides for the abatement of disorderly houses by injunction. The bill passed 68 to 1.

The bill of Representative Arch L. Hamilton to provide compensation for court reporters of 25 cents a hundred words for transcripts and 6 cents for duplicate passed by the vote of 73 to 0.

The Committee on Agriculture reported that the resolution of Representative R. T. Smith to investigate the four great tobacco manufacturing concerns of the nation should not pass.

The committee said that while the companies mentioned could control the crop, yet there is no evidence of it, as tobacco is selling higher than was ever known in the history of the industry.

There was not a ripple in the reports of the committees until the bill of Representative R. T. Smith, of Hart county, to prohibit the slaughter of calves was reached. He moved that the bill be advanced to its third reading, the report of the committee notwithstanding.

Representative Smith made a speech in support of his motion, stating that 73,000 calves from Kentucky were slaughtered. The motion was opposed by Representative Thomas, Chairman of the Committee on Agriculture. During the debate on the motion great laughter was caused by members "bawling" like calves.

### Prison Commissioners' Report.

Biennial reports of the State Reformatory, State Penitentiary and the State Houses of Reform have been filed with Governor Stanley by the Board of Prison Commissioners. The report covers a period from July 1, 1915, to June 30, 1917, the management of the institution during this period being divided between two boards.

The average number of prisoners confined at the reformatory and the penitentiary for this period of time was 2,445 at a per capita of 49½ cents per day. The average number confined at the House of Reform was 424 at a per capita cost of 69½ cents per day.

The expenses and receipts of the institutions for the two years follow: State Reformatory, \$536,992.63; receipts, \$419,311.87; permanent improvements (cell house "A," chair factory, etc.), \$5,000; State penitentiary expenses, \$282,832.17; receipts, \$207,918.08; permanent improvements, \$6,000; State Houses of Reform expenses, \$257,765.46; receipts, \$31,892.73; permanent improvements, \$16,000.

The board paroled 797 inmates from the State Reformatory and the State penitentiary during the period covered by the report. Of the paroled 154 were returned for violations.

**Farmers Prove Loyalty.**  
The farmers of Simpson county have notified Commissioner of Agriculture Cohen that they will grow an acre each of any one crop designated by Commissioner Cohen and deliver the crop free to Camp Zachary Taylor. Commissioner Cohen designated Irish potatoes and he believes that 500 farmers of Simpson county will grow an acre each of Irish potatoes for the American soldiers. Commissioner Cohen believes that it would be a good idea for other farmers to get behind the move.

### More Pay To Be Given Teachers.

More efficient teachers for the public schools of this state, with better salaries, will be developed under the provisions of a bill of Senator Antle, which passed the senate unanimously. The bill fixes the minimum salary for teachers in second class schools in any subdistrict at \$45 a month, and for teachers in first class schools at \$50.

It also provides that whenever installment of the state school fund is not available, state warrants may be issued for same. The bill provided that the interest on the warrants was to be paid out of funds in the treasury. An amendment sent up by Senator Richardson and adopted provided that the interest on the warrants all be paid out of the common school funds.

Appropriations amounting \$265,735.77 for the penal and charitable institutions of the state and the Kentucky Normal and Industrial Institute, of this city, were recommended when the committee on appropriations reported favorably bills for the benefit of these institutions.

The senate passed three companion bills to improve the public roads of the state. Before the passage of the good road measures Rodman Hiley, Commissioner of Public Highways, was invited to address the senate explaining the provisions of the bills.

Two of the measures were introduced by Senator Perry to empower the State Road Commissioner to fix standard maintenance of highways built with state aid, requiring counties to maintain them, and varying the use of the state road fund to maintain the roads, if any county fails to keep them up and regulate the weight of load that may be hauled by the public highways.

The third measure offered by Senator Lewis and reading the state road fund, apportion 5 per cent of cost to counties in a total assessment of less than \$5,000,000, making minimum apportion of 50 per cent of cost in counties with \$16,000,000 assessment, and eight hours constitute a day.

In explaining the cause of maintaining public high roads, Commissioner Wiley made the tent that roads will go to pieces in years. The maintenance of roads, was an engineer's problem should be under the direction of state Department of Public Highways.

### Offers Corporation Bill.

The bill of Senator Perry to permit corporations to buy other shares with the consent of 25 to 5. The bill of Senator Olson, to specify quorum in cities fourth class, had no opposition.

With a resolution adopted in the office of State Fire Marshal Thomas Pannell, at Frankfort, has been investigating the mysterious destruction by fire of the Cynthiana high school building. Mr. Hite stated that, in his judgment, the fire was undoubtedly of incendiary origin.

Barbourville.—The grand jury of Knox Circuit Court has returned indictments against former County Judge Thomas G. Hammons and all the members of Knox Fiscal Court, except E. McKeegan. The Fiscal Court members were indicted for alleged misappropriation of funds from a bond issue for building roads through the county.

Maysville.—Mrs. Annie Lee, sister of the late Major Horatio Ficklin, met with a serious accident that may yet cause her death. Mrs. Lee's clothing caught fire from a gas stove and the flames soon enveloped her entire body. Miss Anna Shackleford, her niece, in endeavoring to extinguish the blaze, was seriously burned about the hands and arms.

Whitesburg.—In an effort to save the life of a pig, Fred M. Croyle, 30 years old, lineman for the Kentucky River Power Co., received internal injuries from which he died at the Hazard Hospital. While walking along the L & N near Lennox he saw a pig on the track and heard an approaching train. Jabbing his tripod at the animal, he lost his footing and fell across the track.

Falmouth.—The terms of the common school are over and the teachers have to wait for their money until the question of the qualification of John C. Drake superintendent-elect, is passed on. State Superintendent Gilbert refuses to recognize the life certificate of Drake as a qualification to hold the office and refuses to pay over the school money coming from the state until the courts decide on the qualification.

## Items of Interest From All Sections of the State

Maysville.—The Boy Scouts have begun a drive for the sale of Thrift Stamps.

Richmond.—Robert Long, Sr., a prominent and respected farmer of the Cottonburg section, is dead after drinking some home-made cider, due to ptomaine poisoning.

Flemingsburg.—Mrs. Pres Walton, aged 81 years, has knitted a sweater and sent it to a soldier. She says she worked for the soldiers in the Civil War and is glad to work for them now.

Owingsville.—James Maxey, walking around over his farm, caught his foot under the root of a bush and fell over the edge of a rock, breaking and splintering the bones of his leg just below the knee.

Carlisle.—Six citizens of Nicholas county have subscribed \$1,000 each for War Savings Stamps. There are fourteen Nicholas county people who have bought from \$100 to \$800 worth of the stamps each. Hundreds of the people here are buying from 25 cents to \$100 worth.

Harrodsburg.—Jack Whitenack, a farmer living on the Bohon pike, is lying at a local hospital in a serious condition. Whitenack was found lying by the side of the road unconscious. It is not known whether he was thrown from his buggy or is the victim of some stroke. He was badly bruised.

Mr. Sterling.—Perry Baker, whose brother, Eugene Baker, was lost on the Tuscarora, enlisted in the army and demanded that he be sent to Camp Taylor at once to go into training. His explanation was that he wanted to get into action against the Germans at once in revenge for the death of his brother.

Maysville.—Louisford Gribble, 35 years old, a prosperous farmer, committed suicide at his home near Moransburg, this county, by shooting himself in the heart with a double-barrel shotgun. He had pulled the trigger with a string. His wife and four children survive. No cause is known for his act.

Cynthiana.—Ed M. Hite, formerly of Paris and Maysville, now chief deputy in the office of State Fire Marshal Thomas Pannell, at Frankfort, has been investigating the mysterious destruction by fire of the Cynthiana high school building. Mr. Hite stated that, in his judgment, the fire was undoubtedly of incendiary origin.

Harrodsburg.—News was received here of the suicide of E. Driscoll at Blandenville, Ind. He was a former resident of this county, and about 48 years old.

Harrodsburg.—A number of citizens here have organized a Liberty Service League, the purpose of which is to encourage patriotism and suppress any seditious talk or act.

Somerset.—Henry Clay Anderson, who vacated the office of Superintendent of Schools of Pulaski county the first of the year, committed suicide here by shooting himself in the right temple.

Frankfort.—Mrs. Cora Wilson Stewart, chairman of the State Illiteracy Commission, has been called by the Federal Government to inaugurate a campaign to wipe illiteracy from the army and navy.

Clay.—Arrests are expected following a factional gun fight in which Frank Beadler was shot to death. Twenty shots were fired at Beadler from behind railroad cars, nine of which riddled his body.

Georgetown.—Fire of unknown origin destroyed the tobacco and stock barn of Senator John Ford, near Georgetown. A horse valued at about \$200, with two buggies and between 6,000 and 7,000 pounds of tobacco, were destroyed. The barn was valued at about \$1,000.

Paris.—A patient in the Massie Memorial Hospital here, who was operated on for appendicitis, was discovered to be suffering from a well-developed case of smallpox. The patient was at once removed to a small out-building on the grounds and the hospital was quarantined.

Henderson.—Charles Black, a coal miner, was arrested on a warrant charging him with attempting to kill his wife and her father, Elijah Rideout. He was taken in custody six hours after he is alleged to have made his appearance at the Rideout home, when it is claimed he shot Rideout and his wife with a shot gun.

Winchester.—Willis Cason, the "hero" in an amateur negro show at North Middletown, shot and killed Will Price, who was in the audience. The "actor" was using a supposed blank cartridge, but a loaded one had been accidentally put in the pistol. The shot went wild and struck Rice in the temple.

Mt. Sterling.—Fire, originating in the basement of the Traders' National Bank Building, gutted the interior of the bank and destroyed the barbershop of G. B. Turner, in the basement.

The law offices of W. C. Hamilton and R. G. Kern were damaged by smoke.

The loss is estimated at \$8,000. Turner's loss is total.

Bowling Green.—W. S. Taylor, of

Bowling Green, has been elected professor of agricultural education at Cornell university. He is a graduate of the Western Kentucky Normal school, the University of Kentucky and the University of Wisconsin and took a post-graduate course at Teachers' college, Columbia university.

Hartford.—Jake Smith, of near Daviess Station, recently captured two gray foxes with a trap made of woven wire set at the mouth of their den. He failed for several efforts with steel traps, but finally succeeded in making the capture with a trap of his own make. They were very fine specimens, measuring three feet four inches in length.

Franklin.—J. H. Covington, Director of the War Savings stamp selling campaign in this country enlisted the interest and aid of the two literary societies of the Franklin High School.

Reports submitted show that the Woodrow Wilson Society sold stamps to the amount of \$5,100, while the J. V. Chapman Society reported sales amounting to \$2,900.

Covington.—Dragged a hundred feet by a motorcycle before machine was stopped, Miss Margie Slaughter, 19 years old, suffered injuries which caused her death. Miss Slaughter was on the seat behind the young man who was driving the motorcycle. Her coat caught in the sprocket of the motorcycle, which was going 20 miles an hour, and she was jerked from the seat.

Frankfort.—Mayor Noel Gaines, who is at Camp Travis, Texas, has been assigned to duty on the staff of General Johnston, commanding, with directions to organize military secret police. Major Gaines, who served with General Johnston in the Philippines, organized a secret service there and succeeded in unearthing Filipino conspiracies in Manila, and his work was known to General Johnston.

Kentucky.

## KENTUCKY MOTHERS

### Prepare for Trouble!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands in Kentucky would testify as do the following

WALES, Ky.—"I take great pleasure in announcing to the public the great benefits I received from the use of Doctor Pierce's medicines. I had that dreadful disease, woman's trouble, which caused such bearing-down pains, burning sensation and dull feeling in my head that became a nervous wreck. I had five doctors to treat me, all to no avail. I had given up to die and to leave my dear husband and five little girls to the mercy of this world, when at last my husband begged me to try Dr. Pierce's medicines. I weighed 118 pounds when I began their use. I used 12 bottles of 'Favorite Prescription' and 'Golden Medical Discovery' and four or five boxes of 'Lotion Tablets.' At the end of the treatment I was well and weighed 163 pounds."—Mrs. RACHAEL TACKITT.

SLAUGHTER, KY.—"I had nervous trouble, heart affection and severe pains in my head. I took two bottles of 'Favorite Prescription' and was relieved. I have taken it several times in the last few years and always with perfect results. I can recommend it to anyone as being all it is represented to be."—Mrs. S. P. COLLINGS, Lock Box 112.

### Senator James Speech Indorsed By Upper House.

Frankfort, Ky., March 5.—The patriotic utterances of the senator from Kentucky, Ollie James, in defence of the national administration's war policy received the unanimous indorsement today of the Kentucky senate, which adopted a resolution introduced by Senator Jay W. Harlan, of Danville.

### WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA  
A DIGESTIVE LAXATIVE

CATHARTIC AND LIVER TONIC  
LAX-FOS is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:

CASCARA BARK  
BLUE FLAG ROOT  
RHUBARB ROOT  
BLACK ROOT  
MAY APPLE ROOT  
SENNA LEAVES  
AND PEPSIN

In LAX-FOS the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not grip or disturb the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

Multimillionaire: Strikes It Rich  
In Big Gusher At Billings  
Oklahoma

The largest well completed in Oklahoma in the last year is the Humphreys Petroleum company's No. 3 Neil Sec. 15-23 2w, at Billings which is now flowing at the rate of 4,300 bbls. to 4,500 bbls. This well off-set the Mid-Co. Petroleum company's 1,500 bbl. well in the same section.

The Humphreys well touched the sand four days ago and drilled ten feet in. It showed for a 400 or 500 bbl well. The board of directors decided Saturday morning to drill five feet further, making a total depth of 2,051 feet. The few feet of additional drilling brought astonishing results. The well is now flowing between 180 bbls. and 190 bbls per hour. The top of the sand was touched at 2,023 feet, and the total penetration is 28 feet.

This is the Humphreys company's second completion at Billings, No. 1 Neil, half a mile north, was completed August 19, and is still producing about 450 bbls. daily.

None of the Billings wells on the top of the structure have been drilled through sand, and as tests to the north have shown more than 110 feet of sand at about the same depth, it is possible that even larger wells will be obtained.

President of the Humphreys petroleum Co. is A. E. Humphreys of Denver, Colo., who organized other famous oil successes, including Duluth and Oklahoma at Beckwell; Merritt Oil and Gas at Boynton; Merritt Oil Corporation of Wyoming. Thos. A. Merritt of Duluth, Okla., vice-president of the Humphreys Co., was associated with Mr. Humphreys in most of the other companies.

The largest local stockholder in the Humphreys Petroleum Co. is F. Julius Fohs of Tulsa prominent geologist, whose percentage of the stock is fully as large as Mr. Humphreys. Mr. Fohs also shared largely in the success of the Merritt Oil Corporation, and Duluth and Oklahoma. He is now a multimillionaire.

Other large local stockholders are E. I. Newblock, J. B. Means and N. J. Gubser.

Capital stock of the Humphreys Petroleum Co. is one million dollars authorized, of which a little more than half has been issued.

The Humphreys company discovered the Billings structure and has approximately 6,800 acres of leases there. —Tulsa Oklahoma Telegram.

### Interesting Letter From The Late Rev. James W. Bigham.

Our friend Thomas Burklow brought us in a copy of the Crittenden Press of Aug. 23, 1882.

In it are the advertisements of many now gone from us forever and many who are living in other states. A. C. Gilbert and son were saddlers, Stewart and Moore liverymen, C. E. Doss saloonist, Dean and Deboe physicians, Nunn and Cruce attorneys.

The Chesapeake, Ohio & South Western Railroad was at Princeton 21 miles away, our nearest railroad station. Pierce, Akin & Co. were experimenting in the new hardware store, an innovation for Marion. B. J. Hartfield had a big store at Caseyville and Sam Guggenheim was clerking for him. Richard B. Dorr had a furniture factory and coffin shop and Ralz Dorr was his chief clerk and apprentice.

J. J. Nail was principal of Marion Academy, Rev. W. B. Crichton of the Marion Academic District school. Rev. J. M. Halsell of the Fredonia Seminary and Rev. Heman H. Allen of the Princeton Collegiate Institute, and all four of the school had paid advertisements in the Press.

A. M. Gilbert, A. C. Moore, W. E. Flanary and George May fast were examined the week before and given certificates as teacher in the county schools. An amusing and characteristic letter reproduced from Rev. James V. Bigham who was preaching the

Lafayette, Ky.,

Aug. 15th, 1882.

The Press arrived Saturday and brought tidings of the great swell so to speak, in Crittenden and I saw clearly that the terrified of blessed old Crittenden had raised their Ebenezer, pieced the inflated balloon of coalition, and to the dignified important office of chief council of the county, elevated by the virtuous and gifted Joseph, the youngest of his brethren, who David, (not the Psalmist) is again appointed chief scribe of the temple. Praise the Lord ad his friend Jonathan (Gardner) is to number the people and frustrate the deadly machination of an evil minded Saul against the safety and continued safety of the sweet singer of our Israel.

Why do my people reject the councils of my servant Aaron (Tooley). I suppose because he has been fooling with that calf, coalition, or (Orr) some thing of the kind over Piney. Didn't Henry run a good line. Poor Bill Johnson, he chews to bacco, I reckon that is the reason he had such pickings (pickings) never mind, Will, wipe off your chin, and try 'em again, that doubtless Thomas who is he, tis said, "To doubt is to be damned," he must have doubted.

You say they are still voting for Eb at the Ferry. Tell them to keep it up. Did the boys hold them down at Marion and whoop 'em up all around the country? I should smile. Did Old Field Sam bring the Bells Mines poll book in that night?

What's the matter with Union? must be something wrong on Kirks ridge, is uncle Fred alive?

Did the Watsons turn out at Hurricane? Where were the Sullengers? I reckon Will Barnett, the Threlkeld boys and Foster Threlkeld were there, you see Eb and Joe went to school with them, and then I expect uncle P. C. B. was around.

Have you heard from Dycusburg? the Koons, Glens, and Bennetts still live about Caldwell Springs, and Dr. Joe and Sam, and John Gelately and Dr. Graves and all the boys must have made it red hot down there they always do. Where was Jno Yandell. Now let us have peace.

Who is co-Alton what did he run for? is he dead? Whoops wasn't it nice? How is uncle Jack?

Tell Eb. Joe and Henry come up, and let this people see a specimen of young America untrified red hot, starsprang banner Democracy. Glory!

It is full for utterance. Tell Henry to kiss Dave and the baby, Pierce to stay more with his wife, Dave woods to enjoy elegant Havannah, and J. Gardner swell the county list as many little gardeners as can find, while Joe and Eb quit the shades of single come up to Christian and double homes with some of fair Christian girls and troously through together.

## Warning To Fertilizer Users.

On account of the shortage of Fertilizer, and shortage of cars, the farmer must bear in mind if he would be sure of getting fertilizer for the spring crops to buy early. We honestly believe if you wait, until you get ready to use the fertilizer, you will be disappointed.

Please let us have your orders and we will fill them as fast as we can get the goods. We have fertilizer ordered and will give notice in this paper when it arrives. This is not a scare, but to help the farmer to be on the safe side. Big crops will win the war, Fertilizer will make big crops don't fail to use it liberally.

## SEVEN SPRINGS

Riley Jones and Miss Iva Griffith were united in marriage at the residence of Rev. J. C. Kinsolving, Feb. 24th, Rev. Kinsolving officiating. The bride is a handsome and much refined and industrious young lady of Seven Springs. The groom formerly lived here, but has been in Cairo, Ill., for the past year, having employment there. We heartily congratulate this popular young couple and they have our best wishes for a happy and a prosperous journey through life.

M. L. Patton and family visited relatives near Emmaus Saturday night and Sunday.

Several from here attended Charlie Smith's sale near Tillie Thursday.

Miss Ruby Dean, our popular school teacher at Boaz, closed her school last

Friday. Miss Ruby taught a good school, notwithstanding the severe cold weather we had the past winter.

She was ever at her post of duty. She did not dismiss her school as many of our teachers did. She gave a prize for every day attendance which was won by Collin Patton. He being the only pupil who attended every day during the seven months' school. She gave some nice books to the other little folks. We wish Miss Ruby success wherever duty calls her in this life.

Ben O'Brien and family visited Tom Patton and family Saturday night and Sunday.

Misses Mabel and Ida Patton visited relatives here Wednesday.

### Is the Champion Cream Saver

## THE NEW DE LAVAL

HERE is no machine made in which proper lubrication is more vital than in a cream separator. A separator that is not properly oiled will turn hard and soon wear out. The old-fashioned method of oiling through a number of little holes would oil too much and too often, while others would not oil enough.

The NEW De Laval oiling system saves time and trouble, makes the machine run easier and longer.

The NEW De Laval oiling system has been greatly improved by the addition in the NEW De Laval of an automatically oiled neck bearing. The consequent elimination of the tube formerly carried oil to this most important part of the machine.

There have never been a cream separator that has so many improvements as the NEW De Laval. Simply keep the sight-feed lubricator top filled with oil and the automatic oiling will see that every gear and bearing in the machine has just the right amount of fresh, clean oil.

Which Do You Sow? Clean Seed (Lower Right); Adulterated Product (Lower Left). Make a Tester of Two Dinner Plates and a Moist Cloth. Bad Germination (Upper Left), Good Germination (Upper Right).

PURCHASE ONLY  
LABELED SEEDS

Farmers Urged Not to Take Any Chances With Product of Poor Quality.

## MAKE A GERMINATION TEST

Home-Made Device Will Tell Value of Seeds—Clean Small Grains Before Sowing—Send Sample to Agricultural College.

The seed trade has voluntarily agreed to label all field seeds with the percentage of pure seed that will grow, giving the purchaser exact information as to quality. The United States Department of Agriculture urges all farmers to buy their seeds only from dealers who comply with this agreement and not to run the risk of buying high-priced, unlabeled seed that will not give a stand in the field.

## Make Germination Test.

Get your seed early and make a germination test of it before sowing. Count out 100 seeds; put them between folds of moist paper or cloth between two dinner plates and keep at room temperature for four days; then count the sprouted seeds. If 95 seeds sprout the seed is good; if only a small part of them sprout the seed is either poor or the test was not properly made. If in doubt as to the value of the seed send a sample to your state agricultural experiment station or to the Seed Laboratory, United States Department of Agriculture, Washington, D. C., with the request that it be tested for quality.

## SCREENING SEED MAY PREVENT NEW DISEASE.

Screening out the shriveled grains from wheat seed before planting will remove one cause of spreading the new bacterial disease of wheat which has been discovered in many states of the middle West. This has been learned by specialists of the United States Department of Agriculture who, in co-operation with the experiment stations of Kansas and Wisconsin, are studying the problem of controlling this disease. Wheat kernels that are plump do not contain bacterial cavities, but shriveled ones often do.

It, including percentage of purity and germination.

Don't take any chances with the quality of the red clover seed you sow this spring.

## High Price of Seed.

Never before has the price of red clover seed been so high as it is at the present time, and never has the quantity of seed on hand been so small in proportion to the acreage to be seeded.

In years when the demand for any kind of seed exceeds the supply, all available seed is put on the market

## SEED DEALERS TO FURNISH INFORMATION WITH PRODUCT.

According to a plan agreed upon by representatives of the seed trade and representatives of the United States Department of Agriculture in conferences last year, seed dealers will provide the following information with all lots of ten pounds or over of field-crop seeds which they sell:

1. Name of seedsman.
2. Kind of seed.
3. Proportion of pure live seed present, with month and year of germination test.
4. Country or locality of origin in the case of the following imported seeds: Beans, soy beans, Turkestan alfalfa, and red clover from southern Europe and Chile.

Since the seed trade conferences, practically all the larger seedsmen have individually agreed to conduct their business in accordance with these suggestions.

and much of the seed is of poorer quality than in normal years. Therefore, every farmer before sowing should know what proportion of the seed he buys cannot be expected to grow. If one lot contains 96 per cent of seed that will grow and another lot contains 64 per cent of seed that will grow it will take three bushels of the 64 per cent seed to sow the same number of acres that two bushels of the 96 per cent will sow.

This is important from the standpoint of cost alone when red clover seed is selling for \$20 or more per bushel. It is much more necessary, however, to know the quality of seed in order that the rate of seeding may be proportional to the quality, so that enough live seed will be sowed to insure a stand in the field. First know how much of the seed may grow and then sow accordingly.

## CLEAN SEED BEFORE SOWING.

Cleaning and grading the small grains for spring sowing should be done before the spring rush in preparing the land and sowing the seed. Wheat, oats, barley, and rye can be improved for seeding by running the seed through the fanning mill at least once. The cleaned grain will run through the drill or other seeding machinery more evenly and thus insure a more uniform stand than can be obtained from uncleansed grain.

Cleaning grain removes most of the weak and diseased kernels, many of which may not grow at all, or if they do grow are likely to produce small, weak plants. Uniformly large, plump kernels germinate more evenly, produce stronger plants, and yield more than ungraded grain containing small, shrunken kernels.

Thorough cleaning also removes a large part of the weed seeds the grain contains. The preparation of the land for seeding destroys many seeds that are in the ground and thus helps to keep weeds in check, but the value of this work is largely lost if foul seed is sown.

## CABINET IS HOUSEWIFE'S WORKING PARTNER.

A Homemade Cabinet That is Sanitary, Convenient and Attractive—Not Expensive.

KITCHEN HELPER  
FOR HOUSEWIVES

## Cabinet Saves Walking To and Fro Necessary in Preparation of Food.

## WELL-SEASONED WOOD BEST

Convenience Especially Suitable Where Space is Limited—Place Provided for Fireless Cooker When Not in Use.

A kitchen cabinet is just as important to the housekeeper as the bench to the workman or the laboratory desk to the chemist. With it the housekeeper can sit down comfortably with her whole kitchen workshop easily within her reach. It saves walking to and fro to gather this thing and that to prepare the food. And every kitchen should have a stool of the right height to enable the worker to sit at her work at the cabinet. The homemade cabinet shown in the illustration is sanitary, convenient, and attractive. It is especially suitable and compact for kitchens in which cabinet space is limited.

A home-made cabinet can be built with moderate expense if outside labor need not be employed. If both lumber and labor must be purchased, the cost will equal that of a ready-made cabinet. The cabinet must be made of good wood, well seasoned. That is the most important consideration. Poorly seasoned wood warps and swells and is a constant annoyance in opening and closing doors and drawers.

## Dimensions of the Cabinet

The cabinet shown in the illustration is 6 feet 3 inches high to the top of the closet, 31 inches high to the top of the table. It is 21 inches deep and 48 inches wide. The part of the cabinet below the table contains the flour bin, large drawer, rack and dough or pastry board. The bin is fastened to the frame with loose-pin hinges. By removing the pins the entire bin can be removed, cleaned, and replaced. The bin can be lined with tin to make

This is the first of a series of articles which will describe household conveniences. The difference between the tired, over-worked housekeeper and one who has some time and energy left for reading and recreation after the day's work is done, often may be accounted for by the kind of equipment used in the kitchen. Under the direction of the state and county home demonstration agents of the United States Department of Agriculture, home conveniences already have been installed in several thousand country homes.

Such conveniences not only effect a real saving in the work of the home, but they help the farm woman to get a greater amount of happiness out of her daily tasks. Many of the improvements that will be described can be used as well in village and city homes.

It moisture, insect, and mouse proof. The dough board should be made of a wood that is tasteless and odorless and should be fitted well in the opening just below the table. A batter is tongued and grooved on each side of the board to prevent it from warping. The roomy drawer can be used for small utensils. The open space below the drawer can be occupied by the kitchen stool or the home-made fireless cooker when they are not in use. Pie pans, lids, and covers have a most convenient place in the rack be-

## SAVE A LITTLE SUGAR TODAY.

Candy at Meal Time Only. Candy is a concentrated food, and should be eaten with moderation. Though we like it, it is not a necessity. It is always best to eat candy as a part of the meal to replace some other food. Eating it between meals not only means needless use of sugar, but often causes a loss of appetite for other foods. Apply this suggestion to the children. If they are to eat candy it should be a part of the meal. Between meals let them have bread and butter, a cracker, or fruit.

low the drawer. A drop table 21 inches wide and 19 inches long increases the table surface. This table is supported by inexpensive folding brackets.

## Provisions for Many Things.

The upper part of the cabinet consists of a closed compartment, three drawers, three open shelves, knife rack, and row of screw hooks for hanging utensils. The closed compartment is for package goods and large utensils. The drawers are for kitchen linen and other things needed in daily use. The lower shelf is 5 inches in depth, while the upper shelves are 7½ inches. On these shelves are kept coffee, tea, sugar, and spice jars. Three inches below the lower shelf is a strip 1½ inches wide which holds the screw hooks. The knife rack is made by sawing slashes 1 inch deep in a piece of material 2 inches wide.

The cabinet is finished with two coats of white paint and one coat of white enamel. It can be easily kept clean and sanitary. Metal or wooden handles may be used.

## APPLE SCRAPPLE IS GOOD.

Fried apples are good with fried scrapple. Yes, answers the healthy appetite, even though it be not acquainted with fried scrapple. Every cook knows how to fry apples, many do not know how to make scrapple—excellent at any meal.

## Ingredients.

Whole hog heads.....pounds. 10  
Hog livers and hearts.....do.....2½  
(A small quantity of beef can be used also if desired.)  
Corn meal (yellow or mixed).....pounds 6  
Buckwheat or rye flour.....do.....4  
Spices, as marjoram, sage, thyme, and pepper in proportion as desired.....oz. 8  
Salt.....pounds. 1  
Liquid in which meat is boiled: use a quantity equal to the total weight of the combined solids.

The proportion of ingredients may be varied to individual taste.

## Directions for Preparing.

Clean the hog heads thoroughly, removing the eyes and ear tubes. Split the head lengthwise and remove the teeth and the soft bone in and near the nasal cavities. Place the hog heads and other meat into a large kettle or caldron with a liberal quantity of water and cook until the meat falls off the bones. Remove all of the meat and soft tissues from the bones and chop the meat by passing it through a meat grinder. Strain the cooking liquid to remove any small pieces of bone. Place the liquid back into the kettle. Heat to boiling point, at which time slowly add the meal and stir until the meat is thoroughly mixed. Price \$30.00—Adv.

Harold a Patriot. Harold Irby, eleven years old, 340 West Thirty-ninth street, has the kind of patriotism that is willing to make the sacrifice of a treasured belonging. Harold decided to sell his electric Christmas tree illumination system and give the proceeds to a patriotic cause. The equipment was sold through an advertisement for one-half of its cost and the money will be divided between the Red Cross society, of which he is a member, and the Y. M. C. A.—Indianapolis News.

### KIDNEY TROUBLE NOT EASILY RECOGNIZED

Applicants for Insurance Often Rejected

An examining physician for one of the prominent life insurance companies, in an interview of the subject, made an astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

# WHAT CAN WE DO?

A shortage of trained nurses confronts the Red Cross and young high school and college women must save the day for the organization in this dilemma. Even though these young women have no expectation of following nursing as a life vocation they may benefit themselves and show their willingness to help when help is badly needed by qualifying to do Red Cross work. The time spent in the nurses' training schools of the country, and in actual nursing, will prove a lifelong asset—broaden the vision and sympathies and make better and less anxious mothers of the girls who undertake such training.

We are to discontinue the knitting of trench caps because the government is to include a trench cap in every man's equipment. And furthermore, we are asked to use the yarn for socks and more socks. The hand-knitted varieties are most satisfactory and even when the upper part is made by ma-

chine the stitches may be taken up on needles of the correct size and the foot knitted by hand.

## FANCIES OF FASHION

COATS WITH "THROW" COLLARS.

Gauntlet cuffs and "throw" scarf collars are among the small trappings in coat styles that distinguish them from preceding seasons. Another almost universal feature of our coats is some sort of definition below the normal waistline, often most above. Nevertheless, of the new coats achieve an at straight silhouette. Bearing in three peculiarities in mind, it will be at all hard to acquire an up-to-date coat, for spring styles show no ridged deportments from those of the winter.

Although the throw is merely a placket to the spring coat for on keen, chilly days, it may be more style note full of charm. There knotted in wearing it which all adjusting it becomingly. Each of two coats illustrated here is prov-

ed with a throw and one of them is ther favored with one phase of gauntlet cuff. Both are of velour, which has proved itself ideal fabric for coats.

The coat at the left resorts to small box plait in the back to provide the required fullness in its skirt. It chooses the high waistline and a scarf in white with tasseled ends in dark taupe like the coat in color.

### NEW FASHIONS

Rippling skirt sections are tabbed by some of the smartest modistes. Gray handkerchief linen is used some of the most distinctive of French hand made blouses.

Cat stitching in heavy silk is often used with self color and finished at some cases replacing fill tire work. The top with cord and narrow knife blouse, since it involves less time stitching of pale yellow. The quaint labor and is almost as effective.

A novel edging, introduced by influence, depends upon knife on some of her blouses, is made and corded to trim. A good tiny seam heading, cut in half and pinked white plaid gingham in dress is combined with white or

Colored pique is used for collars and set of with a brown suede cuffs on lingerie blouses for spring, which carries it above the rank of commonplace.

Blazer stripes are reported to turning to favor in England for sweater.

Most of the best bandouliere brassiere developed, into a manly tuck, sleeveless blouse to wear with shiny suit, the jacket of which is tight and boxlike.

### RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

#### Why She's Barred.

## Just Once! Try Dodson's Liver Tone! Take No Calomel! Listen To Me!

If bilious, constipated, headache or sick, I guarantee relief without taking dangerous calomel which sickens and salivates.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are 'all knocked out,' if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't

straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clear your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep the entire family, feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste. —Adv.

## Proof that Some Women do Avoid Operations

### Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

### How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a real trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well.

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them." —Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

### Life Still Has Its Joys.

If you are troubled with the belief that war has taken all the joy out of life, you should have been on hand when the playful wind took the fat man's hat and he made a zig-zag race for it along the street car tracks, and noticed what a lot of people stopped to laugh their eyes full of tears at the spectacle. —Seattle Post-Intelligencer.

### Always Before Him.

He is a great stickler for procedure, isn't he?"

"I should say so! Why, even the furniture covers in his house are all bound with red tape."

### Catarrh Cannot Be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional condition. HALL'S CATARRH MEDICINE will cure catarrh. It is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE is composed of the best known and choice known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarrhal conditions.

### A Stickler.

Banker Henry P. Davison said at an artists' banquet:

"Gentlemen, I once went in for painting myself, I enameled a bathtub.

"My friends sought to discourage me in my artistic aims. They said: 'It's no use going in for painting unless you stick to your work.'

"Gentlemen, I did so."

### BOSCHEE'S GERMAN SYRUP

will quiet your cough, soothe the inflammation of a sore throat and lungs, stop irritation in the bronchial tubes, insuring a good night's rest, free from coughing and with easy expectoration in the morning. Made and sold in America for fifty-two years. A wonderful prescription, assisting Nature in building up your general health and throwing off the disease. Especially useful in lung trouble, asthma, croup, bronchitis, etc. For sale in all civilized countries.—Adv.

### Not Certain.

"My dear, do you love me still?"

"How can I tell? I've never yet seen you that way."

## 22 Million Families in the United States

IF EACH FAMILY saved one cup of wheat flour it would amount to 5,500,000 pounds, or more than 28,000 barrels. If this saving was made three times a week, it would amount to 858,000,000 pounds, or 4,377,000 barrels in a year.

You can do your share in effecting this saving and really help to win the war by omitting white bread from one meal today and baking in its place muffins or corn bread made according to this recipe:

### Corn Meal Muffins

1/2 cup corn meal  
1/2 cup flour  
1/2 teaspoon salt  
4 teaspoons Royal Baking Powder

2 tablespoons sugar  
No eggs  
1 cup milk

2 tablespoons shortening

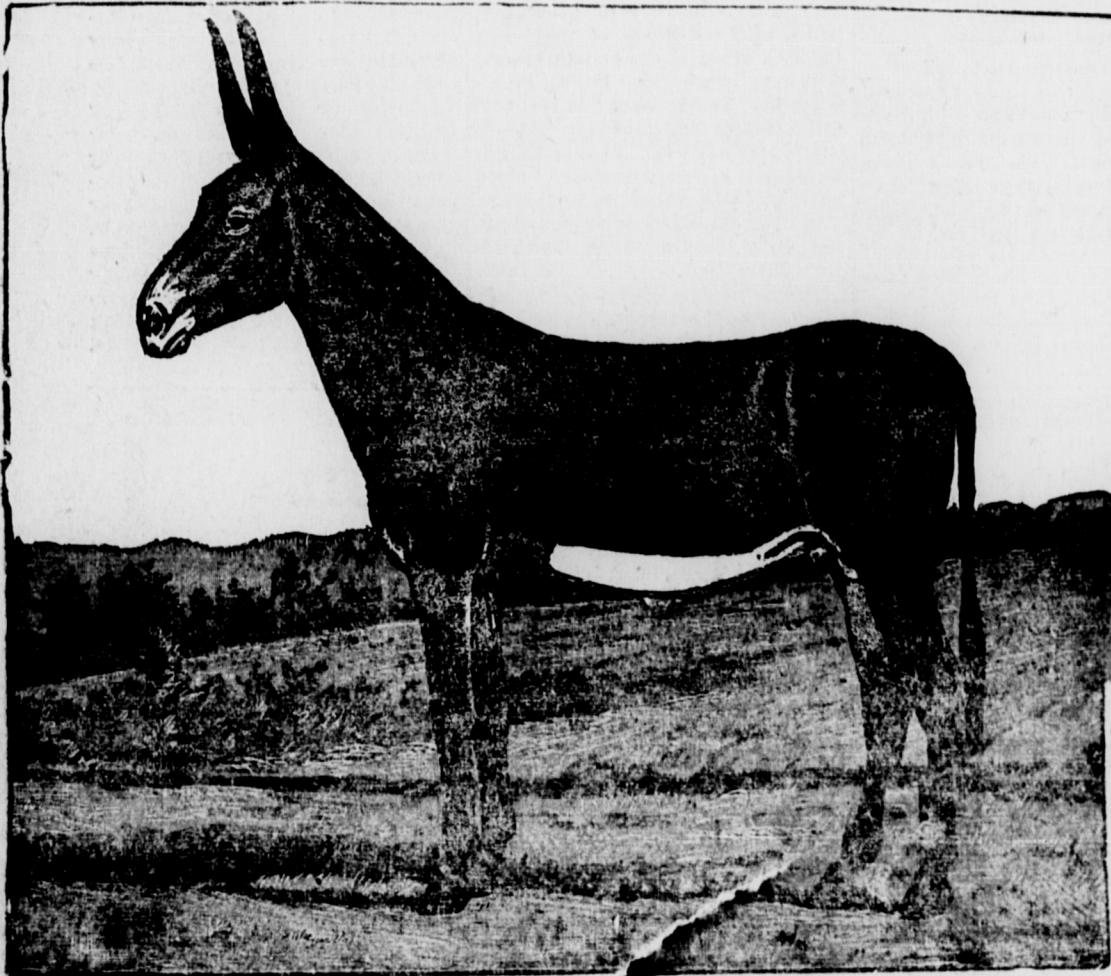

Sift dry ingredients together into bowl; add milk and melted shortening and beat well. Bake in greased muffin tins in hot oven about 20 minutes. Same batter may be baked as corn bread in greased shallow pan.

### WATCH OUT FOR PNEUMONIA!

Your very best preventive against a bad cold, catarrh, pneumonia, or rheumatism, is a strong vitality. With your body in fine trim, you are practically proof against taking a cold or having pneumonia or other diseases so prevalent this time of year. But with your vitality all run down and your blood impoverished, you are susceptible to such diseases. Avoid them all by keeping your system in perfect trim with Nature's wise provision for such purposes, Vin Hepatica, the Universal Purifying Tonic. We recommend it.

Not only will it make you proof against disease, but make you feel like your old self again.

## DEATHS

Mahala Clark, widow of Pres Clark, formerly of this city, died at Uniontown Thursday, Feb. 28th., of diseases incident to old age.

She was born and reared in middle Tennessee, and was a Miss McCormick. She moved to Crittenden county when a girl of seventeen years of age and lived here about for over sixty years. Six years ago she moved to Henderson with her son, Flanagan, and lived there and in Uniontown until her death. Had she lived until July 30th, next, she would have been eighty-four years old. She is survived by one son, Flanagan, with whom she lived, and one daughter, Mrs. Viola Lynn, wife of Willis C. Lynn.

The remains, accompanied by her son and other relatives, arrived here Friday and were taken to the Love graveyard for burial beside the remains of her husband who was laid to rest there nine years ago.
